

Subject: **RePEc, your central resource for research in Economics**

From: daes@agrif.bg.ac.rs

Date: Tue, March 27, 2012 7:00 am

To: zimmermann@stlouisfed.org

With this message I want to remind you that your institution is listed on EDIRC, a directory of institutions related to Economics. Your listing is at <http://edirc.repec.org/data/deassea.html>, and the complete list for your region is available at <http://edirc.repec.org/assocs.html>. If you have any correction to this (or other) listing, please do not hesitate to contact me by return email.

I want to take this opportunity to alert to other services that are made available by RePEc that you or your staff may find useful: <http://ideas.repec.org> and <http://econpapers.repec.org> offer a searchable database of about 1,200,000 research papers and articles in Economics and Finance, in most cases with complete text, and in many cases with links to references and citations. Use of this database is free, and if you are interested in having your institution's publications listed, which is also free, please follow instructions at <http://ideas.repec.org/stepbystep.html>. Over 1400 institutions participate already in this effort.

<http://nep.repec.org>, NEP, disseminates new research through email weekly in 90 different fields. Again, subscriptions are free to everyone.

<http://authors.repec.org/> is a service for authors that allows them to build an online CV with the works listed above. Authors then also obtain free citation analysis, statistics about downloads as well as ranking analysis. About 32000 authors have already registered, including 86% of the top 1000 authors in the world. Also, all listed publications of registered members of your institution are compiled. See <http://edirc.repec.org/data/deassea.html> for a link to this compilations, if available.

The data from all the source above is in addition used to do various ranking analysis. For example, the ranking in your region is available at <http://ideas.repec.org/top/top.assocs.html> (if sufficiently many authors are registered). Encourage authors affiliated with your institution to register in order to improve your ranking.

Other rankings are available here: <http://ideas.repec.org/top/>.

All these services are provided without cost to the profession by a network of several hundred volunteers. Encourage others to use these services. Volunteer opportunities are available here: <http://ideas.repec.org/volunteers.html>.

Christian Zimmermann
Manager of IDEAS
Federal Reserve Bank of St. Louis

Economics Departments, Institutes and Research Centers in the World

Serbia

Top 25% authors and institutions in this region.
